# MS WICU 1000 FLUSH MOUNTED WALL MODULES Characteristics

## Flush Mounted Wall Modules Technical Drawing

### MEDICAL GAS OUTLETS

According to your requests BS, DIN, AFNOR and other international standards Medical Gas Outlets can be used on the unit. Installation of your gas outlets, which you supply in the direction of your demands, can also be done in the unit.

### ELECTRIC SOCKETS

According to your requests and requests of national or international standards, various type of electric sockets can be used in MS Bedhead Units. In Europe and Turkey, Type C (CEE 7/16) standard and other international standards such as Type B (Nema 5-15), Type A (Nema 1-15), Type E (CEE 7/4), Type F (CE 7/4), Type G (BS 1363) can also be used. The installation of the electrical outlets that you supply in the direction of your demands can also be fixed to the MS Bedhead Units.

### COMPLIANCE WITH STANDARDS

MedSystem Pendant Units are manufactured according to international quality and safety standards. All Bedhead Units are already in compliance with the new European Safety standard EN ISO 11197. MedSystem products are 'CE' certified under the Medical Device Directive 93/42/EEC. Since the Bedhead Units contain only a gas outlet in the sense of critical material, the CE mark of the gas outlet manufacturer is valid.
